

July 25, 2016

TO: Commissioners of Bridgeville
Jesse Savage, Town Manager

FROM: Members of Bridgeville Economic Development Committee

RE: Market Street Improvements

At the July 20, 2016 meeting, the Bridgeville Economic Development Committee thoroughly discussed steps that can be taken to improve the appearance of Market Street. The façade improvement grants offered this spring represent a beginning and more grants will be offered.

It is very apparent that the sidewalks are in terrible disrepair. Observing this, the Committee concluded that the best solution would be an ordinance change transferring the responsibility for sidewalk repair and maintenance to the town. With this legal change the town would be able to apply for state financial assistance, repairs would be uniform along the entire street and public safety will be assured.

Your attention to our recommendation would be extremely helpful to our efforts in attracting new business to Bridgeville.

Thank you.
