There are two issues I need to explain more in depth this month.

1. I have contacted Utility Service Group three times this month to get information on cleaning the H.S. water tower. I still haven't received any information. I have talked it over with Jesse Savage, I will be giving him their contact information to see if he can get an answer.
2. I am still waiting on bids to fix the broken valve at H.S. that goes to the hydrant by the pool. I have called 4 local contractors and have received only 1 bid.
