

**Economic Development Committee
Town of Bridgeville
August 2016 Update**

As of the EDC's July 20th meeting fifty-one Bridgeville license plates had been sold. They are available in town hall.

Chairperson Ruth Skala has continued to meet one on one with local merchants both to listen and advise. She has also met with town manager, Jesse Savage, to clearly identify the Commission's priorities regarding economic development.

As part of its ongoing effort to improve the appearance and safety of Market Street, the EDC has recommended that the town changes its code and take full responsibility for the sidewalks on Market Street.

To better understand the county requirements for building improvements, the EDC hopes to meet with the County Code Enforcer at its August meeting.

At its July 20th meeting members of the EDC chose areas of the Strategic Plan that they each were most interested in pursuing. In the near future sub-committees will be formed to further implement the plan.

Respectfully submitted by,
Ruth Skala, Chairperson
Economic Development Committee
