

PUBLIC HEARING

The Planning and Zoning Commission of the Town of Bridgeville will meet on Tuesday, December 20, 2016, 7:00 P.M., at the Bridgeville Town Hall, 101 North Main Street, to hear an application and receive public comment concerning property in your vicinity.

Passwaters Farm, LLC has submitted an application to the Bridgeville Planning and Zoning Commission for a Lot Line Revisions Plat for Lots 373-386 on Whistling Duck Drive at Heritage Shores. Currently these lots are platted and recorded as minimum 46' wide lots that vary in width. The lot line revision proposes 50' wide lots in the existing lot areas for a wider variety of housing options for these lots.

This lot line revision will result in a reduction of two lots in Phase 2. These changes will not; however, change the overall density of the Heritage Shores project.

If you are unable to attend the Public Hearing, you may submit your comments in writing to the Bridgeville Planning and Zoning Commission at the address below no later than Friday, December 16, 2016.
