From the President's Desk

Thank you to all the residents who came to Bridgeville's Memorial Day Celebration on May 28th. Our Economic Development Committee is in high gear for the 2018 summer events simply called "Bridgeville's Fabulous 4th Fridays." Events are scheduled for July 27, August 24 and September 28 from 3 PM to 7 PM in and around the downtown area. There will be Food, Fun, Shopping and Entertainment.

Be on the lookout for "Bridgeville Hometown Heroes World War 2 Banners". These colorful banners are displayed on Market and Main Sts. to honor and commemorate our World War 2 Veterans from the Bridgeville area. It is an opportunity to bring our community together with a sense of Patriotism and Civic Service. These banners will be displayed in Bridgeville between Memorial Day and Labor Day and the cost of the project is covered through donations from local civic organizations and businesses of Bridgeville.

I'd like to recognize all the "un-sung" Bridgeville citizens who have faithfully supported the Town in the beautification of our Town Hall property for many years. They have treated our property as they would their own. We appreciate these residents and want to acknowledge their dedicated service.

We also want to acknowledge all the volunteers who come to prepare the quarterly Town Newsletter for mailing. It's just a few hours and a lot of labels; however, it sure looks like they're having a good time and it is a tremendous help to our Town employees. Contact Town Clerk, Ashley Walls to be placed on the call list. **All Volunteers Are Welcome!**

Sharon McDowell

Minutes from the Monthly Commission Meetings

April, May & June 2018

April: The Commissioners approved Trident Insurance as the Property and Casualty Insurance Provider for the Town. An Ordinance to Amend Chapter 110 as it relates to the Contractor's Licenses was introduced.

May: The Commissioners approved the Heritage Shores Special Tax Report & Levy for 2018-19. Representatives from MuniCap were available. The Commissioners approved Passwaters Farms, LLC Special Tax Partial Payments and Bond Agreement. Demetrius Kaouris representing Passwaters Farms, LLC and Brookfield Homes was present. The Commissioners approved the Cook Street Improvement Project Proposal for Engineering services submitted by Davis, Bowen and Friedel. The Commissioners approved the Economic Development Committee's request for Signage approval but asked for options for the sign design.

June: The Phase 4B development plans for the Bridgeville South District and Modifying the Development Standards Application to such phase was approved by the Commissioners (Resolution 2018-03). Bob Rauch representing Rauch Inc and Passwaters Farm LLC was present. The Commissioners adopted the amendments to the Town of Bridgeville Personnel Policy (Resolution 2018-05). The Commissioners adopted the Town of Bridgeville's FY-2019 Operating Budget (Resolution 2018-04). The Commissioners approved the Economic Development Committee's signage request and the Vendors for June 22nd's Fabulous 4th Friday.

Pool Owners

Pool meters will again be available from the Town Hall. This metered hose will allow you to fill your pool with water **ONE TIME ONLY** **DURING THE SUMMER**, charging only for water, not for sewer. Pool meters must be returned within one

**In order to vote in
Municipal Elections
you must be
registered to vote at
Town Hall.**

It's your right.
It's your responsibility

Town News/Community Activities

Town-Wide Clean-Up Day / Curbside Pick-Up Saturday, September 29, 2017

Curbside items must be out by 6:00 A.M.

THESE ITEMS WILL NOT BE PICKED UP:

Refrigerator/Freezer/Air Conditioner
Tires/Construction Materials
Batteries/Oil/Dirt/Rocks/Bricks

Yard Waste - Keep Separate!
Limbs: 4 ft. lengths & bundled
All other Yard Waste must be bagged

WILL BE PICKED UP:
Furniture/Household Trash/Yard

Keep separate from other trash:
Dried Paint / Stain, Etc.

Chicken BBQ From now through October 7th the stand will be open every Saturday and Sunday. The BBQ will also be open on Labor Day, September 3rd.

****Apple Scrapple Festival** Don't forget the Home Decorating Contest sponsored by the Kiwanis Club of Bridgeville. Plan now and you could join the host of residents who have been winners of this popular Apple Scrapple Festival event.

Community Activities

Economic Development Committee (EDC)

The Economic Development Committee (EDC) is continuing to look at Vibrancy Grants along portions of Market Street and Main Street and is currently evaluating bids for Accent Lighting, starting with the Town Hall building. We will then offer an opportunity for residents along Market and Main to participate in the grant program.

The bike trail naming contest and event were a huge success. After counting all the votes, the town voted to name the current bike trail the Home Town Trail. Donna Ray of Bridgeville submitted the winning name and won prizes valued at \$200 from downtown businesses.

Two new branded town entrance signs have been approved and will be installed along HWY 13 in the coming weeks.

We are planning our annual Fabulous Fourth Fridays featuring vendors, food and music. This year the events will be held June 22, July 27, August 24 and September 28.

The EDC became a member of the Tourism, Arts and Downtown Development (TADD) alliance. The alliance is made up of towns in Delaware and Maryland to promote tourism using programs like their Eat, Drink and Buy Art campaign.

If you have thoughts or ideas to share, please feel free to contact any members of the EDC or attend a meeting. Meets are currently held on the third Wednesday of the month at Town Hall at 3 PM. Volunteers are always welcome.

Lions / Lioness Club News

2017-18 Officers

President: Russ Daudelin Treasurer: Rick Tull
1st VP: Eddy Parker Secretary: Bill Nennstiehl
Directors: Shawn Hatfield/Jim DeAngelis/Steve Kendall/Bill Gulledge

T-Ball Field The Lions Club will soon be replacing approx. 114 ft. of fence and posts that are in need of repair on the T-Ball field

Events: They will have their concession trailer at the Fabulous 4th Friday events featuring their world famous crab cakes and other items. They will be traveling to Federalsburg on 6/30 for the Frog Fest and to Willis Chevrolet in Smyrna on 9/8 to a car show as fund raising events.

New members are always welcome. The Lions Club meets on the 1st & 3rd Thursday of each month at St. Mary's Episcopal Church at 6:30 pm. They hope to see you there!

Bridgeville Historical Society

The Bridgeville Historical Society's 40th Annual Auction/Social will be held on Saturday, September 8th in the Banquet Hall of the Bridgeville Fire Company. The social will begin at 5:30 pm with heavy hors d'oeuvres, beer, and wine, followed by an auction at 6:30 pm featuring auctioneer Frank McCraghan. Tickets are \$25 per person and will be sold by advance purchase. Proceeds from this event are essential to sustain the preservation of our Town's history, maintain our Old Fire House Museum, and the beautiful memorial park and bandstand. To make this event a success we need your help. In addition to attending the event, we are seeking donations for the auction and contributions or sponsorships. To purchase tickets or make a donation, please contact: Gerri Coble (302-542-7703), Marie Curlett (302-249-0503), or Eleanor Bennett (302-337-3347).

Annual Drinking Water Quality Report for 2017
The Town of Bridgeville Water Department
PWS ID # DE 0000559
101 North Main Street
Bridgeville, Delaware 19933
May 15, 2018

We're pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. **Our water source is groundwater. Our wells draw from the Columbia, Cheswold, and the Frederica Aquifers.**

The Department of Natural Resources and Environmental Control in conjunction with the Division of Public Health Department has conducted a source water assessment. If you are interested in reviewing this assessment, please contact the Town Hall @ 337-7135 or go on-line to <http://delawaresourcewater.org/assessments/>. Overall, Bridgeville Water has a high susceptibility to nutrients, pathogens, petroleum hydrocarbons, and pesticides, a low susceptibility to PCBs and metals, and a moderate susceptibility to other organic compounds and other inorganic compounds.

If you have any questions about this report or concerning your water utility, please contact **Scott Kimball @ 337-7135**. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are held on the **second Monday of each month at 7:00 p.m. at the Town Hall, 101 North Main Street**.

Public Health, Office of Drinking Water and Bridgeville Water Department routinely monitor for constituents in your drinking water according to Federal and State laws. This table shows the results of our monitoring for the period of January 1st to December 31st, 2017.

In this table you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Parts per million (ppm) or Milligrams per liter (mg/l) - one part per million corresponds to one minute in two years or a single penny in \$10,000.

Parts per billion (ppb) or Micrograms per liter - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

Action Level - the concentration of a contaminant which if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Contaminant Level (MCL) - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG) - The "Goal" (MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL) – The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG) – The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

TEST RESULTS						
Contaminant	Violati on Y/N	Level Detected	Unit Measurement	MCLG or MRDLG	MCL or MRDL	Likely Source of Contamination
Disinfectants and Disinfection By Products						
Chlorine (as Cl ₂)	N	0.6	ppm	4	4	Water additive used to control microbes
Haloacetic Acids (HAA5)	N	6.7	ppb	n/a	60	By-product of drinking water disinfection
TTHM [Total trihalomethanes]	N	24.6	ppb	n/a	80	By-product of drinking water chlorination
Inorganic Contaminants						
Barium	N	0.0571* (2016)	ppm	2	2	Discharge of drilling wastes; discharge from metal refineries; erosion of natural deposits
Chromium	N	1.8* (2016)	ppb	100	100	Discharge from steel and pulp mills; erosion of natural deposits
Fluoride	N	0.46-1.1	ppm	0.8 -1.2	2	Erosion of natural deposits; water additive which promotes strong teeth; discharge from fertilizer and aluminum factories
Nitrate (as Nitrogen)	N	0-4.2	ppm	10	10	Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits
Nickel	N	0.9* (2016)	ppb		100	Naturally Occurring
Lead and Copper						
Copper (0 sites exceeded the AL for Copper)	N	0.058* (2016) 90 th Percentile	ppm	1.3	AL=1.3	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives
Lead (1 sites exceeded the AL for Lead)	N	2.1* (2016) 90 th percentile	ppb	0	AL=15	Corrosion of household plumbing systems, erosion of natural deposits
Synthetic Organic Contaminants including Pesticides and Herbicides						
36. Di(2-ethylhexyl) phthalate	N	0.27* (2016)	ppb	0	6	Discharge from rubber and chemical factories

Secondary Standards					
Sodium (Na)	N	29.1-66.2 (average 45.3)	ppm		n/a
Alkalinity (Alk)	N	73.8-183 (average 129)	ppm		n/a
pH	N	6.3-8.3 (Average 7.6)	ppm		6.5 – 8.5
Chloride (Cl)	N	7.1-12.5 (Average 10.8)	ppm		250
Manganese	N	7.5* (2016)	ppb		50
Sulfate	N	0-2.6 (average 1.6)	ppm		250

* The state allows us to monitor for some contaminants less than once per year because the concentrations do not change frequently. Some of our data, though representative, are more than one year old.

All other contaminants were ND in compliance with the Safe Drinking Water Act.

Lead-If present, elevated lead levels can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Bridgeville Water Department is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

As you can see by the table, our system had no violations. We're proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some constituents have been detected. The EPA has determined that your water is drinkable at these levels.

MCL's are set at very stringent levels. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. In order to insure tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration regulations established limits for contaminants in bottled water, which must provide the same protection for public health.

Contaminants that may be present in source water include:

- 1) Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operation, and wildlife.
- 2) Inorganic contaminants, such as salts and metals can be naturally[occurring or result from urban storm water runoff, industrial or domestic wastewater discharge, oil and gas production, mining, or farming.
- 3) Pesticides and herbicides, which may come from a variety of sources, such as agricultural, urban storm water runoff, and residential uses.
- 4) Organic chemical contaminants, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
- 5) Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

Thank you for allowing us to continue providing your family with clean, quality water this year. In order to maintain a safe and dependable water supply we sometimes need to make improvements that will benefit all of our customers. These improvements are sometimes reflected as rate structure adjustments. Thank you for understanding.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Please call our office if you have questions.

Town News

WATER DEPARTMENT

Please keep grass and weeds from covering meter pit lids for ease of location and also to prevent obstructing the meter reading process.

Property owners will be charged to replace or repair damaged meter or meter reading equipment caused by them or their contractor (s).

It is unlawful for anyone other than Town Personnel to enter the meter pit. If caught, you will be subject to fines of up to \$250.

Code Enforcement

Check your electrical bonding of gas piping systems with your local gas supplier if you have any concerns.

Grass Cutting

The Town will only give one warning per year concerning grass that is 8 inches or taller. A \$100 fine will be assessed for a second violation. If you will be out of Town for an extended period of time, please make arrangements for your grass to be cut in your absence. **No Exceptions!**

PARKING REQUIREMENTS

Per Code there is no parking on the grass. If your driveway needs stone in order to not be in violation, the Town will work with you. All parking areas/driveways must have an erosion-resistant material.

Contractors License

All businesses that are doing services or contracting in the Town of Bridgeville limits must have a Bridgeville Contractors License. The annual fee is \$50. Contact Town Hall (302) 337-7135.
