From the President’s Desk

The Commissioners of Bridgeville participated in the Annual Kiwanis Prayer Breakfast, sponsored by our local Kiwanis Club, on Saturday, May 18th. The event date coincided with Armed Forces Day this year, which honors Americans in uniform who have served their country in times of war and peace. The Commissioners appreciated the invitation; it was an excellent program.

The Town also sponsored its annual Memorial Day Celebration on May 27th in the Bridgeville Cemetery. It was a beautiful day for the event and approximately 100 residents came to honor those who have given their lives for our country so that you and I can live free. It was good to have participation from our young people, including high school student Sydnee Smith singing the National Anthem, Mia Vera playing Taps, the Woodbridge High School Marine Junior ROTC as the color guard for the event and Cub Scout Pack #166 leading in the Pledge of Allegiance and staying after to load all the chairs in the Town truck. Colonel Ken Madden, who is involved in our local ROTC program, was this year’s guest speaker.

On behalf of the Commissioners, I would like to thank the Heritage Shores Military Club, our Memorial Day Master of Ceremonies Sid Stein and Town employees Peggy Smith and Bruce Williamson for their efforts on behalf of the Town.

If you have been in downtown Bridgeville recently, you will notice our flower barrels are in full bloom. The plants are from Everbloom Lane, LLC in Bridgeville and the barrels were lovingly rejuvenated for the summer months by Mrs. Lori Ockels and Mrs. Jeanine Scott. Thank you ladies!

I would ask you again this summer to be sensitive to your neighbors well being. If you have a neighbor who is elderly or lives alone, please become aware of their needs and keep an eye on them during the heat. The Bridgeville Public Library and Town Hall will again act as “Cooling Stations” this summer. See page 9 of this newsletter for more information.

A special thanks to Town Manager Jesse Savage and our Department Heads: Streets - Rick Passwaters, Water - Scott Kimball, Wastewater - Jeff Collins and Police - Robert Longo. A balanced budget has been adopted for the upcoming fiscal year 2014, which begins July 1. The budget amount is $2,356,680, which is a 4% increase over the current FY13 budget and includes no increases in fees to residents. These employees made hard choices concerning repairs and purchases to hold the line on fees for Town services this coming year. Job well done!

Enjoy your summer!

Pat Correll

### Minutes from the Monthly Commission Meetings

**April, May & June 2013**

Police Chief Longo introduced Mrs. Robin Bohn as the new Administrative Assistant for the Bridgeville Police Department. She has 25 years' experience in the court system and has already had a very positive impact on the department in the short time she has been there. Mrs. Bohn is in the Police Department office Mondays, Wednesdays and Fridays from 8:00 AM to 4:30 PM.

The Town of Bridgeville hosted the monthly SCAT (Sussex County Association of Towns) dinner meeting on April 3rd at the Bridgeville Fire Hall. Over 80 people attended to enjoy the Fire Company Ladies' Auxiliary's delicious food and to discuss recycling.

The Town has acquired two 2006 Chevrolet Colorado pick-up trucks from Kent County Animal Control. The pick-ups were in good condition and a reasonable price. They are being utilized by the Code and Wastewater Departments.

Mr. Joshua Forster from MuriCap, Inc. attended the May Commission meeting for a yearly discussion of the Heritage Shores 2013-2014 Special Tax Levy. 71% of the special tax is being paid by the developer this year.

The Commissioners appointed Mr. Steve Dell and Mr. Ed Lewandowski to the Bridgeville Planning and Zoning Commission for 3-year terms. Mr. Joe Conaway stepped down from his position on the Board after serving four years. We have been appreciative of his expertise in many areas.

The following Ordinances have been approved by the Commissioners: 1) An Ordinance amending the Town Code as it relates to Land Use and Development to require Landscaping Plans in RPC's and Subdivisions which are to be developed in Phases. 2) An Ordinance amending the Town Code as it relates to Brush, Grass and Weeds by adding Exemptions to the 8” grass cutting requirement.

A Budget Workshop was held on May 14th to discuss the FY2014 Budget. The Commissioners discussed the budget in detail with suggested amendments. A second workshop was held on May 29th, which resulted in the approval and adoption of the budget. The 4% increase in the budget for the upcoming fiscal year is mainly due to a fully-staffed Police Department.

A contract for the paving of the Town Hall parking lot was awarded to Del-Mar-Va Paving Company. This required the removal of the recycling bins. The bins have been relocated to the Goodwill parking lot on Route 13 and we trust that will be a convenient location for our residents to dispose of their recycling.

The Town is also repaving the entrance to the Wastewater Treatment Plant and completing a storm drain replacement project. These monies were awarded to the Town by former Senator Booth before he left office. We sincerely appreciate his provision of funding for these important projects.

### New Faces on the Block

Town-Wide Clean-Up Day / Curbside Pick-Up
Saturday, September 28, 2013
Curbside items must be out by 6:00 A.M.

**THESE ITEMS WILL NOT BE PICKED UP:**
Refrigerators/Freezers/
Air Conditioners
Tires/Construction Materials
Batteries/Oil/Dirt/Rocks/Bricks

**WILL BE PICKED UP:** Stoves/Scrap Metal/Furniture/Household Trash

**Yard Waste - Keep Separate:**
Limbs: 4 ft. lengths & bundled
All other Yard Waste must be bagged

**The following must be kept separate from other trash:**
Dried Paint/Stain, Etc.
(Remove lid or place kitty litter inside to dry paint before discarding)

---

Garbage/Recycling Services
There will be no interruption of garbage/recycling services due to the July 4th or Labor Day holidays. Recycling services are provided bi-weekly and collection will be as follows:

<table>
<thead>
<tr>
<th>July 5</th>

7th Annual Bridgeville Charity Open Golf Tournament
Friday, October 11, 2013
Heritage Shores Golf Club

---

Bridgeville Area Telephone Directory
The St. Mary’s Episcopal Churchwomen create an annual, local telephone directory for Bridgeville. They are missing many of our new residents’ information and would like to include all those who wish to be listed in the directory.
The deadline for this year’s new phone book is imminent; however, you are welcome to send your name, address and phone number (land line or cell) to the address below for insertion into the telephone directory.
Any insertions received after the deadline will be included in next year’s directory. They are also anxious to correct any errors in listings.

Please contact: St. Mary’s Churchwomen
P.O. Box 92
Bridgeville, Delaware 19933

---

VOLUNTEERS NEEDED
Preparation of Newsletter for Bulk Mailing
The Town is maintaining a list of residents who are willing to help prepare the Town’s quarterly newsletter for mailing (tabs/labels/etc.).
There is no obligation involved; you would receive a phone call from Town Hall to check your availability when the newsletter arrives from the printer.
Please contact April at Town Hall 302-337-7135
or email abuckler@ddmg.net to express your interest.
Community Activities

Bridgeville Historical Society News
Discover a Treasure in your own Backyard! Forget the traffic jams and tiring rides. You and your family can discover the history of our community by visiting the Bridgeville Historical Society's Old Firehouse Museum at 102 William St. It will be open on the following dates:
First Sundays: 11:30 AM - 3 PM July 7 August 4 September 1 October 6
Tuesday Mornings: 9 AM - 12 PM
Apple Scrapple: Festival Saturday, October 12, 10 AM - 3 PM
Groups by Appointment: Call Howard Hardesty @ 337-8595 to make arrangements
35th Annual Auction-Social Saturday, September 7 6:00 PM Bridgeville Volunteer Fire Company
This fun-filled event and major fundraiser helps maintain the Society's museum and park. For an invitation, call Eleanor Bennett @ 337-3347. The Society is a non-profit organization and will accept quality items for the auction which begins at 7:00 PM. DON'T MISS THE FUN!
General Meeting: September 11, 6:30 PM Covered-Dish Dinner
New Members are most welcomed to join.

Friends of the Bridgeville Library (FBL)
July 16 - 6 PM Potluck Dinner Annual Meeting Library Meeting Room
The Friends will be drawing the winning raffle tickets for a picnic bench donated by the JEM Lumber Company. Monthly FBL events will resume in the fall.
New members are always welcome!
Stop by the library to sign up

Lions / Lioness Club News
Officer Installation Night: On June 27th new officers will be installed, as well as new member Dustin Parker.
Awards: The Lions and Lioness Clubs have presented their annual Woodbridge Graduate Awards to high school seniors.
Federalburg "Duck Float Festival": The Lions and Lioness will be in Federalburg on June 29th with crab cake sandwiches for sale. Join the fun and stop by our booth.
Greenwood Days: Club members will likely participate in this festival in September.

United States Army Band Concert
September 24 - Heritage Shores
60-piece band + 40-voice choir from Fort Meade. More information will be available in the near future.

Bridgeville Public Library Events
Summer Reading Program - "Dig Into Reading"
Now through August 6
Join us for great performances, archaelogical digs and crafts designed to bring out your "Inner cave dweller or archaelogist!". A complete schedule is available at the Library.

Lap Sit: Wednesdays, 10 AM, Ages 3 mo. to 2 yrs.
Genealogy: Monthly, 3rd Wednesday, 10:30 AM
Recent Reads: 3rd Saturday Monthly, 11 AM (light lunch)
Family Fun Night: July 16, Aug. 20, 6:30 PM
Teen Programming: July 9, 11 AM - "Illstyle & Peace"
Philadelphia-based dance company
Computer Skills and E-reader Classes: Offered monthly on various topics; check Facebook or website for details.
Storytime: On hiatus until September
Library Closings: Jul. 4 & 27 Sept. 2 Oct. 3, 12 & 14
Library Hours: Monday-Friday 10 AM - 7 PM
Saturday 10 AM - 3 PM
For more information, contact the Library at: 302-337-7401, ext. 101

SUPPORT YOUR LIBRARY AT KIWANIS BBQ
SATURDAY & SUNDAY JULY 27 & 28
We're pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. Our water source is groundwater. Our wells draw from the Columbia, Cheswold, and the Frederica Aquifers.

The Division of Public Health in conjunction with the Department of Natural Resources and Environmental Control has conducted a source water assessment. If you are interested in reviewing this assessment, please contact the Town Hall @ 337-7135 or go on-line to http://www.wr.udel.edu/swaphome/swassessments.html. Overall, Bridgeville Water has a high susceptibility to nutrients, a high susceptibility to pathogens, a high susceptibility to petroleum hydrocarbons, a high susceptibility to pesticides, a low susceptibility to PCBs, a moderate susceptibility to other organic compounds, a low susceptibility to metals and, a moderate susceptibility to other inorganic compounds.

If you have any questions about this report or concerning your water utility, please contact Scott Kimball @ 337-7135. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are held on the second Monday of each month at 7:00 p.m. at the Town Hall, 101 North Main Street.

Public Health, Office of Drinking Water and Bridgeville Water Department routinely monitor for constituents in your drinking water according to Federal and State laws. This table shows the results of our monitoring for the period of January 1st to December 31st, 2012.

In this table you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Parts per million (ppm) or Milligrams per liter (mg/l) - one part per million corresponds to one minute in two years or a single penny in $10,000.

Parts per billion (ppb) or Micrograms per liter - one part per billion corresponds to one minute in 2,000 years, or a single penny in $10,000,000.

Action Level - the concentration of a contaminant which if exceeded, triggers treatment or other requirements which a water system must follow.

Picocuries per liter (pCi/L) - Picocuries per liter is a measure of the radioactivity in water.
Maximum Contaminant Level (MCL) - The “Maximum Allowed” (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG) - The “Goal” (MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL) – The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG) – The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

</table>

* The state allows us to monitor for some contaminants less than once per year because the concentrations do not change frequently. Some of our data, though representative, are more than one year old.

**All other contaminants were non-detects in compliance with the Safe Drinking Water Act.**

Lead—If present, elevated lead levels can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Bridgeville Water Department is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

*You can see by the table, our system had no violations. We’re proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some constituents have been detected. The EPA has determined that your water is drinkable at these levels.*
The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. In order to insure tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration regulations established limits for contaminants in bottled water, which must provide the same protection for public health.

Contaminants that may be present in source water include:
1) Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operation, and wildlife.
2) Inorganic contaminants, such as salts and metals can be naturally occurring or result from urban storm water runoff, industrial or domestic wastewater discharge, oil and gas production, mining, or farming.
3) Pesticides and herbicides, which may come from a variety of sources, such as agricultural, urban storm water runoff, and residential uses.
4) Organic chemical contaminants, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
5) Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

MCL's are set at very stringent levels. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.

Thank you for allowing us to continue providing your family with clean, quality water this year. In order to maintain a safe and dependable water supply we sometimes need to make improvements that will benefit all of our customers. These improvements are sometimes reflected as rate structure adjustments. Thank you for understanding.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Please call our office if you have questions.
Community Activities

Summer “Cooling Stations” for Bridgeville Residents

Cooling Stations have been designated to assist residents who are in need of heat relief when temperatures and humidity are dangerously high from now until Labor Day. Please assist your elderly neighbors and those who have medical conditions that would be affected by high heat whenever possible.

Bridgeville Public Library  
600 South Cannon Street  
Monday-Friday 10 AM - 7 PM  
Saturday 10 AM - 3 PM

Bridgeville Town Hall  
101 North Main Street  
Monday-Friday 8:30 AM - 4:30 PM

Please see page 12 for Library / Town Hall Closures.

When visiting a Cooling Station, please bring medications, water and specialty items that you will need while away from home.

Kiwanis Club of Bridgeville News

Chicken BBQ  Kiwanis Chicken BBQ continues every weekend through October 7th. During July and August the stand will also be open every Friday.

It is through the public’s generous support that Kiwanis is able to provide these services for community organizations and fill a void which otherwise might go unfunded.

Apple Scrapple Festival  Don’t forget the Home Decorating Contest. Plan now and you could join the host of residents who have been winners of this popular Apple Scrapple Festival event.
