Does he meet minimum separation when he crosses the water line? That would be only reason I can think of that they would get involved.

Would you agree a DNREC Division of Water Permit is not required for this project?

Richard,

Here is the plan we discussed this morning. As you requested last week, we moved the isolation valve to the edge of the DELDOT Permanent Easement. Let me know if this job will require a DNREC Division of Water Permit.

Thank you,

Ken
