I writing this letter in response to the storage units that are about to be built across the street from my home. I'm on Main Street. It currently looks like an eye sore and I feel like you are going to continue that trend, not caring about the residents here in this small town. If you build the storage units you should have the decency to place a buffer with some kind of landscape so the residents on Main Street aren't looking at more lots that take away from the neighborhood and drop our property value. My front door literally faces what will probably be the back end of the storage units. Please think about the residential implications your having on our homes and at least add some beautiful landscaping for the residents to see when they open their front doors.

Thank you

Micah and Donna Eddy
