COMMISSIONERS OF BRIDGEVILLE
SPECIAL MEETING
MAY 21, 1969

Meeting called to order by President Paul A. Lynch at 7:30 P.M.

Members present were J. K. Simons, Wm. R. Reynolds, T. J. Gray, Jr. and Earl C. Willey.

Also present from Water and Air Resources Commission were Mr. John Bryson and Mr. Robert Smith.

The purpose of the meeting was to discuss the waste going into the Disposal System of the town. When the plant was built in 1967 it was to take care of one million gallons a day. At that time industry knew of this but they put considerably more than had been agreed upon. The over throw of gallons will cause the plant not to work properly.

Mr. Bryson said that Industry should stick to the amounts that they had agreed on in the beginning. He said we had a plant that would operate efficiently on the amount it was built to handle.

H. P. Cannons have made progress in helping to divert the heavy load that they put in the disposal system last year.

He suggested an Ordinance be adopted to have industry pay for any damages caused by their waste, and this would make them be more careful what went into the sewer.

Mr. Smith discussed the grease problem at Ralph and Paul Adams, Inc. plant and said he felt that if someone put three hours a day on taking care of this pit he thought it would work out alright.

Mr. Bryson offered other suggestions and asked that J. K. Simons send him some grease and they would work with it to try to come up with something that would help with their problem.

Motion was made and seconded that H. P. Cannon & Son, Inc. and American Consumers Industries, Inc. shall put the number of gallons into our Sewer Lines as stipulated in their contract. It is our intentions to comply fully with this motion.

✓ He also stated that it would be alright to start the work of installing sewer and water lines to Pet Poultry Products, Inc. which is a new industry in Bridgeville.

Mr. Smith and Mr. Bryson left at 9:15 P.M.

Mr. Lynch talked about the Water Department and he had Miss Neva Dickerson and Mr. Joseph Willey look into the possibility that the Department was operating in the red. They made

recommendations that were read to the Board and they were going to return at a later date to make a further study.

Motion made by Wm. R. Reynolds to write a letter to Cannon's and Dulany's asking them to keep the sewer usages as it was agreed upon when the plant first started. Seconded by T. J. Gray, Jr.
